

**Brian Brockway**, President, CEO and Chairman

Brockway founded Transoma Medical in 1983 on the basis of technology he developed as a graduate student. His creative spirit has fostered an entrepreneurial culture within the company that has attracted medical device engineers, sales and marketing specialists, and other professionals. He has more than 25 years of experience in designing, marketing, selling, and manufacturing implantable devices and holds 21 patents. He began his career with Cardiac Pacemakers (now Boston Scientific Cardiac Rhythm Management).

Brockway has written articles for numerous bioengineering and medical publications. He received bachelor's and master's degrees in electrical engineering from the University of Minnesota. Currently, he serves on advisory boards for the University of Minnesota Departments of Physiology, and Electrical and Computer Engineering, and is a past board member of several non-profit organizations.

**Charlie Coggin**, Vice President and CFO

Coggin has more than 25 years of finance and accounting experience. Prior to joining Transoma Medical in 1989, he was a senior manager at KPMG and a controller for two technology start-up companies. Coggin received a bachelor's degree in economics from the State University of New York at Cortland and a master's degree in business administration from the University of Michigan. He served as an adjunct faculty member at the Graduate School of Business at the University of St. Thomas from 1987 to 2000 and as President of the Twin Cities Chapter of Financial Executives International during 2006-2007.

**Jack Stewart**, Vice President of Manufacturing Operations

Stewart has more than 30 years of experience in the medical device industry. Prior to coming to Transoma Medical, he worked as an independent consultant focusing on operational effectiveness and organizational development and also held the position of Vice President of Operations at St. Jude Medical, ev3 and Boston Scientific Corporation. He has a bachelor's degree in economics from Harvard University.

**Nestor Jaramillo**, Vice President of Sales and Marketing

Jaramillo joined Transoma Medical in July 2006, with more than 23 years experience in the medical device industry. He spent much of his career at Medtronic, gaining broad-based experience in sales and marketing, domestically and internationally, in cardiac rhythm management, cardiac surgery and the neurological business. He is currently a board member for Heartbeat International, a non-profit organization. He has a bachelor's degree in electrical engineering and a master of business administration degree in marketing from the University of St. Thomas.

**Perry Mills**, Vice President and Chief Technology Officer

Mills is a co-founder of Transoma Medical. He has more than 25 years of experience in implantable medical devices, including service at Cardiac Pacemakers (now Boston Scientific Cardiac Rhythm Management). He has extensive experience with analog chip and radio frequency design and holds 15 patents in the field of implantable medical devices. He has bachelor's and master's degrees in electrical engineering from the University of Minnesota and Illinois Institute of Technology, respectively.

**Angela Raun**, Vice President of Regulatory Affairs and Quality Assurance

Raun has more than 25 years of medical device industry experience and was named vice president of regulatory affairs at Transoma Medical in 2006. In 2007, she expanded her role in the company by also becoming vice president of quality assurance. Previously, she held positions with Medtronic and American Medical Systems as well as Boston Scientific, where she was director of regulatory affairs for its Cardiovascular Division. She holds a bachelor's degree in biology from St. Olaf College and a master's degree in public health from the University of Minnesota.
